

SETTING GARDEN GOALS

What's your motivation for creating an In the Zone garden? What do you hope to gain from the experience? Think about the following and set goals that are meaningful to you and your campus.

Save the earth

- Watch wildlife
- Grow local
- Help ecosystems
- Climate proof your campus
- Share your love of nature

Grow a healthy campus

- Get outside
- Relax
- Create beautiful spaces
- Campus fun
- Connect with students & staff
- Forage for wild edibles

Save money

- Low maintenance
- Share native plants
- Conserve water
- Conserve energy
- Increase property health
- Deter pests

Manage

- Enhance curb nature appeal
- Create shady spaces
- Contain wet areas
- Nurture dry areas
- Set healthy boundaries
